October 26, 2006

Dear OT and Namex Shareholders and Interested Parties,

As an advertiser in Resource World Magazine, I was invited to talk about O.T. and Namex on its affiliated Resource World Radio. My interview lasts 12 minutes and is the second segment, about 13 minutes into the program.

The program link is being forwarded to all of our in house e-mail list as I believe that all or most of you will find the entire 30 minutes well worth your listening time. Based on my presentation, you should find the interview by an analyst from Sprott Securities to be of particular interest. Sprott Securities is a leading Bay Street financial institution known for their base and precious metals expertise.

News releases and shareholder updates are in preparation and will be in your hands shortly.

As always, please feel free to call (514) 935-2445 EST or e-mail me.

Sincerely,

James W. Hess
President

Attention James Hess: Hello Mr. Hess: Here is a link to where the Resource World Radio Show is posted on the Internet. <http://www.resourceworldradio.com/>

Our interview is in the second block of the show (Show #9), and begins at about the 12 minute mark.

Thanks for the interview!

Regards,

Robert Graham
